

Senator Kennedy:

There are approximately **43,950** students in Louisiana public schools, with approximately **87,900** voting-aged parents. Approximately **15,000** of those students will be able to vote in **2022**, meaning your decision on **Betsy DeVos** affects approximately **102,900** of your potential voters.

You won your last election by **188,375** votes.

Hope you're feeling confident! There are plenty of Republican politicians in Louisiana who would gladly run for your seat and promise to protect our schools.

Vote NO on Devos, or you will lose my vote and thousands others.
